

'Bye 'bye Teddy Bear

Notes for parents and carers

Cut out the row of 5 teddy bears and ask your child to trace over the numbers with a pencil. When each teddy bear says "Goodbye" in the song, show your child how to fold the last one in the row back along the fold line. Say there is now one less and count the remaining teddy bears together. Continue the activity until all the teddy bears have gone and the song ends.

Early Learning Goal

Use language such as "more" or "less" to compare two numbers.
